

DINNER TIME

Watch the video to learn about what your animal eats.

Circle the foods that your animal likes to eat.

Which ones would they find in the wild? Circle these in a different colour.

dandelion flower

banana

almonds

grapes

insect larvae

water

cricket

strawberry

carrot

wattle seeds

Roots or potatoes

snail

sunflower seeds

grass or grass seeds

corn

mealworm

watermelon

Should they be eating human food like bread? YES or NO

Sometimes we group animals together if they eat the same types of food.

A herbivore eats only plants

A carnivore eats only meat

An omnivore eats both plants and meat

My class mascot eats

both plants and meat

They are

an omnivore
