

# LIVING OR NON-LIVING?

Let's work out if these things are living or non-living.

Tick if the answer to the question is yes. If it has 3 ticks it is LIVING.

		Does it grow?	Does it move?	Does it eat?	Does it drink?	Does it have babies?	Living or not?
Koala							
Lizard							
Rock							
Tree							
Beetle							
House							
Water							

Go outside with your class

Close your eyes and count the living things you can hear on your fingers

How many did you hear?

Now count the non-living things you can hear

Now try to count the things you can see
